RE: Request for a new Water Meter

Attached please find an East Crawford Water Supply Corp. Service Application and Agreement, a USDA Right-of-Way Easement and a Request for Water Service Investigation. In order for us to consider providing a water meter to your property, I will need for you to complete the Request for Water Service Investigation and return it to us with a check for \$75 made payable to East Crawford WSC. If it is determined that a new meter can be served on that line, we will need for you to complete the Service Application and Agreement and Easement and return these forms to us at the above P. O. Box with a check for \$6,020.00 which includes the following fees:

\$4,100.00—Capital Improvement Fee  
\$1,300.00—Expected Upgrade Fee  
\$ 200.00—Membership Fee  
\$ 175.00—Meter and Box  
\$ 245.00—Labor

If it is determined that a road bore is necessary, you will be responsible for the cost of such.

Our rates for a 5/8" x 3/4" meter are as follows:

Base Rate	\$50.00 per month
0 to 4,000 gallons	\$4.00 per 1000
4,001 to 13,000 gallons	\$5.50 per 1000
13,001 to 30,000.00 gallons	\$7.50 per 1000
30,001 & above	\$9.50 per 1000

If you connect our water to a house, barn, etc., you are required by the State of Texas to have a customer service inspection performed **prior to occupancy** at your expense. Also, if you install a sprinkler system, according to government regulations, we must be furnished with a copy of the test results of the check valve for our files annually.

Please do not hesitate to give us a call if you have any questions. Our office phone number is 254-723-1834. We look forward to providing water service to you and your family.

Sincerely,

EAST CRAWFORD WATER SUPPLY CORP.
